Estimated Program Cost Sheet Effective Fall 2018 Curriculum

This sheet includes estimated costs associated with the Undergraduate On campus BSN program. These costs are only estimates and may vary during the time the student enrolls.

**Verifications**

Students are required to provide documentation of immunizations and health insurance prior to beginning the nursing program. Health insurance is available to purchase through NDUS. Additional immunizations will be required during the program. A list of required verifications will be sent to the student upon application. Below is the current cost for immunizations via UND Student Health. Costs may vary based on the individual student insurance and location of immunizations.
