ANNOUNCEMENTS

Interim Nursing Liaison Librarian Named
The School of Medicine and Health Sciences has named Michael Skinner as the interim Nursing Liaison Librarian following Annie Nickum’s departure. Michael Skinner holds a Bachelor of Nursing Science degree and 5 years library experience in a medical school setting. Based in Minot, please contact Michael with any of your nursing library resource needs.

Michael Skinner
Northwest Clinical Campus Librarian & Interim Nursing Liaison Librarian
School of Medicine & Health Sciences, Library Resources

PUBLICATIONS

EVENTS

CNPD All College Fall Picnic
Food, beverages, and games!! All are welcome to join on the south side quad of the Northern Plains Center for Behavioral Research (NPCBR). The annual fall picnic is a great time to relax, network and make some connections at the college.
Invited: All CNPD students, faculty, staff and alumni
When: Mon, Sep 9, 5:00 PM
Where: NPCBR lawn
**TRAINING SERIES**

**Applying CDC’s Guideline for Prescribing Opioids Interactive Training Series**

The Centers for Disease Control and Prevention provides an interactive, online training series designed to help healthcare providers apply CDC's recommendations for prescribing opioids. Each stand-alone module is self-paced and offers free continuing education credit (CME, CNE, and CEU).

Modules include:

- Addressing the Opioid Epidemic: Recommendations from CDC
- Treating Chronic Pain Without Opioids
- Communicating With Patients
- Reducing the Risks of Opioids
- Assessing and Addressing Opioid Use Disorder
- Dosing and Titration of Opioids: How Much, How Long, and How and When to Stop
- Determining Whether to Initiate Opioids for Chronic Pain
- Implementing CDC’s Opioid Prescribing Guideline into Clinical Practice

*Eligibility:  Anyone interested in training on CDC’s guidelines.*

*When: Self timeline*

*Where:  [https://www.cdc.gov/drugoverdose/training/online-training.html](https://www.cdc.gov/drugoverdose/training/online-training.html)*

**RECENT CALLS**

**Midwest Nursing Research Society Call for Student Poster Abstracts**

**Deadline: September 30, 2019**

**POSTER CATEGORIES/JUDGING INFORMATION**

All application instructions and guidelines must be followed. Student abstracts that do not meet the guidelines will be eliminated from judging. Each educational level will be judged in three categories. Students MUST select from one of the following three (3) categories:

1) **Research**
   - A systematic investigation used to generate generalizable knowledge about a phenomenon.

2) **Evidence Based Projects**
   - This category includes projects which exemplify the use of best evidence from research, practice and patient preferences to influence the provision of high quality care.
   - EBP projects start with a clinical problem or quality concern, evaluate the literature for best practices related to the concern, and implement evidence-based practice, system, and/or policy changes to address the concern.
   - EBP projects should highlight recommendations for clinical practice, future research, and policy change.

3) **Literature Review**
   - The literature review is a thorough review of the literature related to a clinical problem.

FUNDING OPPORTUNITIES

Bush Foundation Fellowship
Deadline: October 24, 2019
The Bush Fellowship Program offers flexible grants to individuals that can be used to pursue education and experiences to become more effective community leaders. Funding may be used to make progress toward or complete an academic degree, or complete a self-learning program where the learning experience is developed by the Bush Fellow.
Past fellows have worked in rural communities to:
- Strengthen community networks
- Eliminate food disparities
- Break down cultural barriers
- Build suicide prevention programs
- Support youth involvement in Native American communities
- Advance cultural traditions in Native American communities
- Improve economic opportunity

Nutrition and Alcohol-Related Health Outcomes
Deadline: May 7, 2020
This Funding Opportunity Announcement (FOA) encourages applications that propose to examine associations between nutrition and alcohol-related health outcomes in humans and animal models. The goal of this FOA is to stimulate a broad range of research on the role of nutrition in the development, prevention, and treatment of a variety of alcohol-related health outcomes including alcohol use disorder and chronic disease.

Emotion, Regulation, Aging and Mental Disorder
Deadline: January 5, 2020
This Funding Opportunity Announcement (FOA) encourages applications for mechanistic research on age-related changes in emotion regulation and how they may contribute to mental disorders in middle-aged and older adults. In particular, research is sought that will advance understanding of irregularities in the integrative neural-behavioral mechanisms of emotion regulation in adult mood and anxiety disorders, and that will examine whether the irregularities are associated with typical or atypical maturational trajectories of emotion processing. Currently, it is not known whether older adults who suffer episodes of affective dysregulation share the same patterns of improved emotional function with age as have been found to be typical of the older adult population in general. Research that helps to clarify whether they do or do not manifest typical emotion processing trajectories may lead to very different understandings of the irregularities involved in their dysregulation. It is anticipated that such studies may identify novel targets for mental health interventions or prevention efforts, or provide clues as to which available intervention strategies might be optimally applied to normalize emotion dysregulation or to strengthen emotional resilience at particular stages of the adult life cycle.
